Baró Gallery is pleased to announce the first group exhibition of residents which will be inaugurated on July 10, 2014 at 19h, along with Felipe Ehrenberg solo show. Curated by Adriano Casanova, the show marks the gallery debut of the Residency Program and features young artists from other states of Brazil.

During the residence period - which ranged from one to two months - artists from Pernambuco (Ramonn), Rio de Janeiro (Felippe) and Minas Gerais (Alan), experienced the city of São Paulo, specifically the neighborhood of Santa Cecilia where the gallery is located, and each in his own way was incorporating elements of this experience in the work conception.

Alan Fontes, 34, teve apoio do Prêmio Foco Bradesco Art Rio 2013 para sua residência. Na mostra do mineiro, serão expostas seis pinturas inéditas que dão continuidade à série "Desconstruções". Esta tem como temática casas em ruínas cujas estruturas arquitetônicas se encontram parcialmente preservadas, revelando um aspecto ambíguo de destruição.
